QUESTION: 107

You have a Power BI app named App1. The privacy for the App1 app workspace is set to Private. A user named User1 reports that App1 does not appear in the My organization AppSource. App1 appears in the My organization AppSource for your account. You need to ensure that User1 sees App1 from the My organization AppSource. What should you do?

- A. From the app workspace, click Update app, configure the Access setting, and then click Update app.
- B. From the app workspace, share the dashboard.
- C. From the app workspace settings, add a member.
- D. From the app workspace, click Update app, configure the Content settings, and then click Update app.

Answer: A

QUESTION: 108

DRAG DROP

You create a report in Power BI Desktop.

You need to embed the report into a Microsoft SharePoint Online site.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions		Answer Area	
Add a webpart to a page.		1	
Pin a visualization.		2	
Pin a live page.	⬅	3	⬆
Obtain an embed link for SharePoint.	➡		⬆
Publish the report to the Power BI service.			

Answer:

Exhibit

Actions		Answer Area	
		1	Publish the report to the Power BI service.
Pin a visualization.		2	Obtain an embed link for SharePoint.
Pin a live page.	⬅	3	Add a webpart to a page.
