Answer: B, C, E

QUESTION: 48

Sue White is a Global Administrator who logs into a recently configured tenant as a tenant administrator. Why might Sue need to do this?

- A. Because this enables Sue to monitor tenants using a read-only view of settings configured by the tenant
- B. Because this is the standard way to create the Custom Vendor Configuration template that Sue can use for all future tenants
- C. Because this enables Sue to administer the tenant from the tenant perspective and perform tasks such as creating IP domains and user accounts
- D. Because as a Global Administrator who logs in as a tenant administrator, Sue can perform additional tasks that a tenant administrator would not be able to perform

Answer: C

QUESTION: 49

Sue White logs into CA Performance Center as the Global Administrator. When Sue uses the Admin menu to administer a tenant:
